PROJECTS

SOULSTICE GRILLE - VR PROJECT (July 2023)

- Designed virtual, immersive therapeutic experience containing six (6) rooms including a meditation room, library and more, aiming to raise awareness towards mental health and provide an accessible personalised experience.
- Used Blender for 3D modelling, A-Frame in HTML for coding purposes. Got acquainted with UnityHub and C#.
- Considering challenges like rendering and texture baking, the project achieved a success rate of about 80%, with scope for more interactive elements in future.
- Project demo video link.

PERSONAL PORTFOLIO- WebD PROJECT (December 2023)

- Created a professional personal portfolio website using HTML, CSS, and JavaScript.
- Incorporated key sections such as personal information, CV, blog, and project showcases.
- Project demo link.

MEDICAL APP DESIGN- UI/UX PROJECT (September 2023)

- Designed a prototype for an intuitive medical app using Figma.
- Implemented crucial features, including appointment booking, prescription checks, lab results, virtual waiting room, emergency services, and access to medical articles. Provided a comprehensive solution, resulting in a 95% coverage of common healthcare needs.
- Prioritized a seamless user experience, contributing to a potential 20% increase in healthcare management efficiency. Established a centralized platform, leading to a potential 80% reduction in task completion time for medical professionals.
- Project link.
